German Counter Attacks In The Somme Repulsed

Capture Of Powerful French System Reported By Paris

London, Sept. 14.—Paris announces that the French north of Peronne are holding tenaciously to the salient they have driven into the German line east of the Ypres-Peronne road near Bouchavesnes. They hold intact, too, the town of Bouchavesnes and other points along the line captured in the offensive started Tuesday.

The capture of a powerful organized German trench system south of the LePriez farm near the road running west from Rancourt to Comblès has put Comblès in further jeopardy. Fighting in the region of Bouchavesnes has been sanguinary. Finding that the French had cut their line of communication from Peronne northward, the Germans threw violent attacks against L'Abbe wood and Hill 76, south of Bouchavesnes, and retook both places. The French, however, returned viciously to the attack and, after hard fighting, some hand-to-hand, finally drove out the Germans and kept the ground they had won.

On the British Somme front the situation remains unchanged. South of the Somme, heavy artillery duels between the French and Germans continue in the region of Verdunville and Chaulnes. Repulse of a German attack near Fleury in the Verdun section is reported by Paris.

Heavy fighting continues all along the Macedonian front, but no important changes are reported. The Italians have joined in the fray west of the Vardar river. Near Lake Butkovo, Rome declares, they have driven Bulgarian detachments beyond the Demir-Hissar Dorian road. The Bulgarians

say, however, that the Italians were dispersed in this region. The British across the Struma river, south of Lake Takino, have made no further efforts to advance and in that region there are no developments.

In the Dobruja region of Roumania, the central powers are going on with their operations methodically, according to Berlin. In Transylvania the Germans have joined the Austrians near Hermannstadt, and southeast of Hoesztig, in fighting the Roumanians. In the Carpathians Russian attacks along the entire front have been repulsed, according to Vienna and Berlin.

AERIAL RAIDS SUCCESSFUL

Russian Warships Hit by Bombs Dropped From Zeppelins.

Berlin (via Sayville wireless), Sept. 14.—The German admiralty issued a statement telling of two successful aerial raids made by German aviators on Russian sea forces. The airships attacked the Russian war craft off Constanta. Several hits were observed. One of the bombs landed on a battleship; another struck a submarine. Several destroyers also were hit. All the seaplanes returned unharmed.

On the evening of the 9th the German naval air squadron also made a successful attack on the Russian fleet in the Riga bay. Several hits were observed. One Russian destroyer was sunk by a bomb, the report stated. In spite of a heavy bombardment by the Russian ships, all the German aeroplanes returned in safety to their base.

BEER IS COUNTED AS BREAD BY GERMAN GOOD TEMPLARS

Berlin, Sept. 14.—The German lodges of the Good Templars, a temperance society with more than 50,000 members, have addressed the following open letter written by Privy Medical Councillor Dr. Bonne, a prominent physician of Klein-Flottbeck, to Chancellor von Bethmann-Hollweg: "Your excellency's government has reduced the production of beer 52 per cent since the beginning of the war, but 2,100 tons of grain are still used daily for brewing purposes. This quantity of grain would be sufficient to feed 10,000,000 people. Undoubtedly your excellency knows that for the production of one quart of beer eight and a half ounces of barley are used and that the daily bread ration per head is only eight and one-tenth ounces. Barley is a bread grain, like rye and wheat, and must be saved as much as possible. If the government considers it necessary to keep the breweries in operation social justice demands that beer shall only be sold to holders of bread cards and that the consumers of this beverage shall receive correspondingly smaller quantities of bread. Such a measure, however, would be insufficient. In our opinion all danger of a shortage of bread grain and hunger can easily be removed by closing the breweries and distilleries until peace returns."

Polindexer Renominated. Seattle, Wash., Sept. 14.—United States Senator Miles Polindexer, who was elected as a Republican six years ago and who joined the Progressive party four years ago, was renominated as the Republican candidate for senator in the primary election, defeating William E. Humphrey, now representative in congress from the first district, by a plurality estimated at 7,000. The Democrats nominated Former Senator George Turner.

ENORMOUS INCREASES IN EARNINGS OF RAILROADS

Washington, Sept. 14.—Railroads of the United States rolled up enormous increases in net revenues in the fiscal year ending June 30, with a small increase in cost of operation. The interstate commerce commission announced in a special report showing earnings and expenses of 187 principal railroads. The roads earned a net revenue of \$1,176,804,001. Total revenues were \$3,396,808,234 and operating expenses \$2,220,004,233. The net revenue per mile was \$5,134, as compared with \$3,763 the previous year. Freight earnings aggregated \$2,309,
